## MODIFIED VAN VALUATION

---

**We at Brentacre want to make sure that every van is insured correctly. To ensure this, we believe it is important that you obtain an up-to-date valuation for your van. This will not only give you peace of mind in the event of a claim, but will make sure you are not overpaying on your premium.**

*We know that obtaining valuations can be a bit of a hassle and time consuming, so to help you, and to make the process as pain free as possible, we have included instructions below to help you on your way, and if you still need help, we are just on the other end of the phone.*

All you have to do is fill in the sections yourself. You are not required to get the form verified as we will use the information provided in this form to agree a value.

All you then need to do is send the form, images requested below with cheque payment (or call to pay by card) for the amount of £30 to cover our admin costs.

---

### IMAGES

Images of your van are required to accurately ascertain the vehicle value. We need at least four colour photographs of the vehicle, showing different angles. At least one must show the registration number and preferably one each of the engine bay and interior. Remember you know your vehicle better than we do.

---

### ONE LAST THING

Here at Brentacre, we know as much as anyone how much vans cost to restore and how much sentimental value they hold, however, please make sure you are realistic with your valuation. We reserve the right to question or even decline an application if we feel the value provided is not honest and true. If sections on this form are not completed correctly/truthfully then we shall insure your vehicle at the current market value.

Once you have completed all relevant sections, please return the form with all applicable images and payments to the Postal or Email address at the top of this document.

## SECTION 2 - VEHICLE CONDITION

To keep things as simple as possible, we have based the following section on a scale rating. All you have to do is tick the relevant box next to each part which describes the condition it's in.

The ratings work as follows:

- P Perfect Perfect condition either due to restoration or preservation. Original condition where all work has been carried out and completed to the highest quality.
- E Excellent Excellent condition where the vehicle is fully restored or original with slight work required in order to reach the perfect grade.
- G Good Good condition but where the vehicle is unable to reach the perfect grade, no major issues or faults however lacks history and/or originality
- S Standard Roadworthy and is capable of obtaining an MOT certificate but could use TLC
- U Usable Drivable yet in need of substantial work for it to reach Standard or Good grade
